I wouldn't. If there is hyperinflation, stock prices will inflate along with the prices of other goods. Real estate should inflate as well but that doesn't affect the cost of your existing mortgage.

32 Hyperinflation is probably what the left *wants*, especially for those in (student loan) debt.

▼ Example: (Student loan) debt is a fixed-dollar amount, but with inflation, money will be devalued so that they have to get paid 2x or 3x the amount to get the same "purchasing power" they had before.

More Republicans live in CA than any other State. CA has lots of strategic resources: Ports, oil/gas, tech, aircraft/missile/drone productions, colleges, major military bases, crops/food, water, mountains(terrain), population centers, propaganda Hollywood industry, and many other things. It's why the CCP and commies have been making it a major beach-head landing zone for 27 years now full speed cheating elections since the 1994 Prop 187 Fight. California = Republican.

Some cities have the commies & corrupt running them; but overall with Election Integrity Restored, CA would be supermajority Republican (and not the corrupt Mittens types either).

Secession is only a temporary solution at best, unfortunately. Nothing would prevent traitorous Zionists Soros and Zuckerberg from continuing to fund, elect, and bribe traitorous gubermint vermin and unscrupulous judges in Texas or any seceded states, for that matter, like they have done nationwide to great effect.

permalink parent save report block reply

▲ **change_bidens_diaper** 13 minutes ago +2 / -0 (edited)

2 No, it would be illegal for any private citizen to sponsor or fund any government-run event, such as elections. Zuckerberg spent more than the government did to hold this election in all the places where the fraud occurred (most likely...can't confirm in all cases but in some, because the non-profit refuses to disclose how they allocated the 400M...the ones we know about are due to the grant recipients themselves disclosing the amount they received vs. their federal funding). He bought drop boxes, paid for BLMers to have increased presence in polling stations, paid for machines, etc. This money went through a non-profit that refuses to release to the public how the \$400 million was allocated. They have only revealed which districts got funding, but now how much each received. That's fucking bullshit and it should be illegal now, and probably is, but since he's a leftist he'll never be prosecuted.

All those motherfuckers that were covering the windows, all those motherfuckers counting and

2 Some of this Q stuff is like the [Iraqi Dinar scam](#) where the promise of a revaluation (RV) 'soon' has been happening for pretty much since the war. The reasons why it is not happening yet change by the week, and scam operators thrust forth a mix of bogus Finance, Diplomacy and Spook Q-like talk in regular nonsense word salads. I think its principal victims have been lone geriatrics whose memory of last week is fuzzy so all that remains of last week's excuses is a vague emotional recollection of the optimism (which is hopium I guess). What is missing is the BS/Suspicion factor rising to an awakening and sudden snap of anger. I think these people have that part of the brain short-circuited somehow.

You can still catch bits of Dinar RV Hopium at [rumormillnews.com](#), otherwise an interesting place for odd stuff, in messages mentioning 'poof'. It's really thesis-worthy.

Exactly. Georgia is unfortunately now loaded with commies that have come from the NE and West Coast. While we are very red outside of Atlanta, we are seriously being overwhelmed. The fraud here was deep, but the sad reality is that the commie numbers here are deep as well. Even if there was mild fraud, there are still a LOT of commies here and they KEEP COMING. As long as there are good economies in red states, the commies will keep coming. The dreams of Texas seceding are nice dreams. But Texas has been overrun by commies moving out of the West Coast and bringing their commie politics. Texas is less red today then it ever was. Same as Georgia. Somehow, we have to get rid of the commies.

No we didn't fuck over Trump. Trump was on the way out regardless. He picked a backstabbing traitor to be his righthand man. Billy Bagpipes to be AG, Christopher Wray to be leader of the countries premier law enforcement agency, and it cost us our democratic process.

This movement is bigger than Trump. If we want something done we are going to have to do it ourselves.

5 To ensure that common people (falsely) believe the narrative that the Capitol Hill protest was truly a "threat to democracy" and an attempted "insurrection," then an overwhelming display of military force is required as a reaction.

Whether or not the inauguration of fraud will be virtual, the unnecessarily strong presence of military is for the purpose of fear -- fear for anyone who would dare be a Trump supporter and fear of the common person for a Trump supporter.

"Trump supporters are so violent that 20000 soldiers are required to protect our leaders from them!"

2 I think, on face value and no larp, they don't want people blowing federal buildings. But its not just 100 or 400 or 1k security. This shit is like 20k ppl. So I am not sure at all.

But also for larp, you don't need 20k troops to arrest sleepy joe (UNLESS he has a plan to arrest sleepy joe and the troops are there to protect DC from Antifa riots). Who knows man. I am watching everything like a hawk, but always look at it from face value eyes first. Then think logically and then see if the larp fails or wins.

So far I am leaning on no larp.

NOBODY I s f ocusing on the breachers -- the dude who looks like Slayer's frontman who broke into the capitol, and all the guys with plate carriers and helmets who went in with him.

They broke in, others entered too, and the doors were open to the larger masses.

I really don't fault people who when seeing the door open went inside the "people's house." I do fault the people who broke the side window and infiltrated.

What do we know about them? Less than the Mandilay Bay shooter, and nobody in the media will show the video of the breach or their faces.

Literally the night of the 6th, people on here were saying "IT WAS MUH ANTIFA!!!!"

Mmmmyeah no, I was there. Maybe some antifa but it was mostly pissed off Trump supporters. And after being there, I do not blame them for what they did. But we need to stop fucking pretending we're innocent. This site was fucking filled with people calling for civil war. Anyone solely blaming antifa cannot be trusted. selfie's. Or another guy making off with the lectern. The only violence I saw was that fucking cocksucker of a fed sack of shit who shot one of our women. And yeah I want see that fuck hung or shot by firing squad. Some of you people need to grow a pair of nuts. Of course Donald isn't going to condone violence and how the fuck do you know they haven't threatened him. We are a 75 million man armed and very pissed off army. Go lose your fucking guns in a boating accident if that's all you've got. Mine aren't lost. I don't want to use them but i'll be God damned if they are are going to get away with curtailing MY free speech or feel they can shoot my loved ones in the neck. We are on the verge of war. A war that has been declared on us not the other way around. I don't mind if my guy loses the election. It's happened before and we all deal with it. But if rat fuck cocksuckers like Dorsey, Zuck and that fucking faggot Huffman think that we are going to just sit by while they silence us and our guy and we are going to just let this happen they are dreaming.

This site was born because that fucking cunt kicked us off reddit. This place probably won't be here in a month. How many fucking sites do you need to get kicked of before you say no more?

I'm not advocating going to DC on the 20th because it's obviously to frame us. It'll be used to come for us and our guns, the only means of defense that we will have left.

You might want to think about where your lines in the sand are if you haven't done it. I drew mine 25 years ago. Up until some of the things we've seen in the last week I've never seen a one come close to being crossed. But it's getting pretty damn close right now.

I hope you fellows who lost your guns in that boat accident are fucking done with that shit. If that's your stance you don't deserve to have and keep them and they sure as shit know that, too.

At some point you need to realize that Trump cannot do this all alone. We've watched him get fucked over and stabbed in the back how many times in the last 4 years?

I will abide by his call to remain peaceful. For now. I don't think the peace is going to last, sadly. Nobody wants war without exhausting every possibility for peace. I think Trump has done and is doing that. Realize one thing: they are going to fuck him so hard into the dirt if they allowed to that no one will ever rise up to do what he's tried to do again. I'm pretty sure no one will anyway. I hope and pray to my God for tenacity, wisdom and courage in the coming weeks to do the right thing. I hope it doesn't come down to violence but I'm pretty sure our founders wouldn't be expecting to win the next election after the last one they just watched got stolen.

▼ So you really expect people who've been dealing with a lifetime of hateful connotation with that word to just embrace it now cause you decided it suddenly means something else? If I called you a retarded inbred and then was like "no no! that doesn't mean what you think it means", would you go along with it? And btw.. there's plenty of letter combinations left if you want a new word..

BLM and Antifa got pissed and burned shit because all you see on tv is cops killing black people but in reality they kill just as many whites for no good reason and no fleeing a scene that had no violence involved does not warrant having an entire clip unloaded into you. The police are not our friends like a lot wanna believe. They will always look out for them selves and other officers over us. Everyone should have came together and pushed that the ones who swear to protect us do fucking better this past summer and maybe things wouldn't have burned and been as bad.

-1 Not this "both sides shit" For real? It was an antifa false flag, they expected trump supporters to take the bait and after they killed ashley, the Trump supporters still did not take the bait. There was maybe a could hundred dollars worth of damages to windows by antifa. After Trump supporters didn't take the bait they still rolled with their plan/agenda. Obviously what you said holds true, it's just the "Stupid people" on our side weren't from our side. Some Trump supporters did get baited to entering, yea. But no damages etc. On top of that, even if Trump supporters went and killed like 5 people, the "both sides" argument wouldn't be valid still. Because it's either 5 people dead due to government tyranny, or thousands dead because you're commies who want government control. It wouldn't be a fair comparison at all. You probably don't even mean it like that, it's just when people say "both sides" it creates this false perspective that both sides are pretty much equal in their wrong doing

1 Maybe if the Capitol Police did their job to prevent people from entering the Capitol then the Secret Service inside tasked with protecting government officials wouldn't have had to shoot her. Whether you agree with the protesters actions or not, the job of the Capitol Police is to prevent people from entering the building which as you stated they did not do. The next line of security had to pick up the slack and actually do their job to protect those inside the chamber.

▼ just saying, she was climbing through a window. She wasn't standing directly in front of him. If you imagine the body movement when climbing through a window (stepping one foot on the frame while holding the sides of the frame, putting head then shoulders through window, stepping one foot down then the other), it makes more sense, She was shot once head/neck went through the window, the first body part in sight would be head/neck.

Not saying it was justified, I'm not implying anything by what I wrote just specifically addressing your "why ddint he shoot here or there!!" concern. I will say i am very disappointed to see the whole "shoot her in the leg!!" argument here. That's just..not how it works. He shot the first prominent body part that came through the window.

But ldk, maybe it was all the media attention the donald got but wow this place is very different. Spiraling further and further into adopting leftist narratives/excuses/entitlement and it's super fucking annoying.

You sound like you're a shill. Of course I would say this if it was antifa. What's the difference? A body is a body and if they're secret service they should know what they're doing with a gun. Don't know what your point is with that.

I know they're not trained to shoot them in the leg, or the fucking face, which is why I said center mass first. I don't know why the fuck he shot her in the neck when he could've easily shot her in the chest. He was close enough, and she wasn't running anywhere that he could've even shot her in the leg because she was putting her weight on them to climb. It was one of the best times to be able to shoot a target in the leg if ever.

[permalink](#) [parent](#) [save](#) [report](#) [block](#) [reply](#)

▲ **Hairy_Mouse** 3 hours ago +2 / -2

Because that's correct. He should have shot her in the leg or somewhere else. You are supposed to aim center mass to neutralize the target. Not to KILL the target, though it's a good possibility, but NEUTRALIZE. This dude aimed straight for the head area. That's a much more difficult shot and not where you are supposed to aim. If he was going for something like that, there's no reason to aim for another part of the body. That wasn't meant to stop a threat, it was a straight up execution.

16 ▾ Cuz that's worked out so well for us for the past several decades, right? While we've stood aside and let the left erode our rights, and our culture, and now we've let them OPENLY, BLATANTLY STEAL an election, newflash bud, it doesn't get better from here. We don't heal from here. Either we get down in the much and play the game on their level or we keep losing. I ain't afraid of getting dirty.

3 ▾ Agree that the last thing we need right now is to fall into more false flag psyop bullshit. As to where we go from here, rock bottom. Maybe then we can rise from the ashes when there is nothing left to lose but our lives. The future looks bleak as hell. I don't understand the people still saying "but 2024". We will NEVER have a free and fair election anytime soon after this steal was allowed to slide. Can try to get voting system reforms but the people we need to pass them are the same people that just got away with stealing the country. What freedoms we still have left are headed towards extinction.

Please, Don't repeat marxism's vocab for them; don't carry their water. It's like calling marxists/Lefties "liberals" as an insult; you're not insulting them, you're giving them the exact cover-word that FDR re-defined to give them cover for their evil ideology---ie helping marxists with their smokescreen and devaluing the word/vocab which they are using, spreading their message.

Thus you're devaluing AMEN which is one of their goals with the word; and removing the meanings.

Focus & Discipline, don't help the commies particularly if you think it's "funny"... Pol Pot's killing Fields are not funny; nor is AOC's "lists". Commies are dead serious. You're words will decide

3 ▼ Indeed. When Deep State midget Fauci started to give self-contradicting messages about China virus & masks and the fake news media uniformly pushed for mail-in ballots as early as Feb-Mar 2020, anyone with at least half a brain knows the subversive Dem traitors have already had plan to steal election and wouldn't announce winner on Election Night.

If you pay attention and have at least an ounce of commonsense, you know what's up. Just like how Alex Jones was able to correctly predict traitorous Fox News would betray Trump on Election Night, no less.

▼ I have no doubt they threatened Trump with arrest after the 20th if he ever mentioned election fraud again. They'll call it inciting a riot, which we know is bullshit, but he hasn't mentioned fraud once since the 6th and I predict he won't be mentioning it again.

The left has all the power now. I suspect they'll try to throw Trump in jail just as punishment for daring to MAGA.

11 Letting Pence run that shitshow with FauXi and Berks for the entire year was a horrible mistake. It was all done for optics, the Karens and the media. I know he had to do something at first, but like you said, when they got the ventilators they should've reversed course. By then, it was clear that they were using it as a political weapon. The decision to do mass testing was what allowed it to metastasize and grow momentum.

You've already got mainstream media calling him the worst president in American history. If he's bowing down to their narratives, I sure hope it's part of some 4d chess.

No...

If he is convicted he will very likely face the death penalty. The impeachment this time is for inciting an insurrection which is a maximum severity crime against the state. By using this language he greatly reduces support for a "mandatory" convict vote in the senate.

He is also projecting an image completely counter to the madman that Pelosi says he is. This makes her look insane and only further erodes her power. She can swing a sword around and scream she is in charge all she wants, but at some point you go from intimidating to just looking sad and insane.

If and when he has a Trump Card ready to play, its going to give him that all important legitimacy.

And Trump never had a fucking plan. Sun Tsu never suggested allowing yourself to be completely defeated and before you throw the first punch.

He knew months before the election what was coming, he literally did NOTHING to prepare for it or stop it. He failed at his primary duty under his oath - FFS he couldn't be bothered over the past 4 years to familiarize himself with the basic Constitution.

Still the best President of my lifetime, but he handed over the nation to the Chicom globalists and really thinks he'll be able to make Trump The Network and recover.

Violence is the basis of all political solutions. People don't obey laws because they get asked nicely. They obey laws because a) they didn't need a law to get them to do right in the first place or b) because they are threatened with violence for not complying (this includes robberies called "fines").

Debate and democratic systems are civilized ways of resolving the conflict of values created by differing ideologies and priorities. We have been robbed of both.

We haven't lost the vote, some commies just rigged it. Now we can unfuck things for the next one. That faggot in Broward nearly stole the election from DeSantis two years ago, FL got their shit together this time and it was a pretty easy win. No reason we can't do the same in these other states now.

Then direct the DOJ to place federal marshals at vote count centers to secure the votes. This should've happened the moment several states halted the vote count. He could've even used NG troops to do this. Voting was over so it wouldn't influence voter turnout. Something the media would accuse him of. He isn't crossing anything unfortunately. That video was a waste of time. We don't need to be told to "be calm" while our great country is being stolen from us. Sad to see Trump like this. I completely understand him giving a few throwaway lines about being non-violent, but this is the second video in two days I've seen of him talking about the "violent riot" at the capital. This has gotten more coverage than 6 months of riots, 2B in damage and 30 people dead, I think you've said enough about it Mr. President.

With what army? The people rose up, threw off the chains, stormed the Capitol - meaning two or three dozen people strolling through the corridors and making prank calls from Pelosi's office. There's your revolution. There's your warfare.

Sometimes I think the left's propaganda of Trump being "literally Hitler" got to his supporters as well. Personally, I think he is way too nice and too weak to do what some people want him to do. He cares for his family, maybe he wants a second chance on the presidency and making deals right now (though I wouldn't trust neither Dems nor RINO GOP to actually uphold their part of the bargain). Like so many people on the 6th found out, it's one thing to talk big and daydream, it's a whole other story to actually find yourself in a situation to put your money where your mouth is. 22 Just remember that you're calling me a backstabber when this bag of hot air sat by whining on Twitter while watching BLM and Antifa raze entire fucking cities only to be rewarded with things like equal legislation, disproportionate hiring policies, grants and monies used for systemic racial enhance^{ment} mandated workplace inclusion training, etc. only for one riot by his supporters that he antagonized at

the capitol to be referred to as an insurrection by who he referred to as "a mob."

...and it won't stop there.

▼

In fact, just today Apple released a statement announcing the launch of a new \$100 million+ "*racial equity and justice initiative project to challenge systemic racism*." From what I read, it will tie into several "*education and funding commitments later in 2021*" and it all stems from BLM "protests."

It's all about distribution of resources, regardless of whether anything is earned and you'll be getting more because of immutable characteristics now.

The problem arises when people put all their hope into something that, given all current evidence, will not happen and neglect to prepare for what will likely happen.

People need to be making backup communication plans, ensuring they are properly supplied, and determining potential egress routes for their families. Waiting until the 20th to start doing so is valuable time lost.

I can support that - and I can support preparing for the worst possible scenario but still praying for a miracle. Don't be paralyzed with hope! Use that energy for action while keeping joy and hope in your heart - otherwise you become a bitter and very angry person with nothing to lose or gain.

He will not say "I concede" because of his ego and because he knows it was stolen. That however does not mean that Biden will not be inaugurated and occupy the WH. That's the beauty of it. We won tremendous support thanks to a country meming and Trump got the most legitimate votes in history. The news media is continuing to lose its grip. Bruh he constantly said what the rioters were doing was insurrection and if the governors and mayors needed he would gladly send in the guard. He constantly condemned the violence and riots while responding to a pandemic.

Oh I just got that you maybe were being sarcastic lol!

He let cities burn as a sort of election motivator...and then complained about mail in ballots...did nothing...and now look where we are.

Ultimately he is the Commander in Chief, top Executive and tasked with making sure laws and justice is carried out. And he let his own country's cities burn. Taking the "states' rights" approach to that was such a bad move. He can't pass the buck off on anyone else, as much as he tried to.

Good, its not up to the federal government to protect states unless they ask.

And on top of that, why you mad at him? First, are you in one of those shithole blue cities? If you aren't why are you mad at him? If you are why aren't you mad are your mayor for not asking for the help as required?

Everyone all about small government until their hand is out.

There is zero possibility of Trump being inaugurated on the 20th. Zero. Even if you believe he will ultimately get his 2nd term, it's not going to happen on the 20th. Other things would need to happen before Trump could be inaugurated. At a bare minimum, it would take some kind of congressional action to declare him the winner. If anyone gets inaugurated on the 20th, it will be Biden. If Biden doesn't get inaugurated, then nothing is happening on the 20th.

Um no sweaty that was social justice in action. See Trump voters have "false consciousness". Proletariats are often brainwashed into identifying with the system that keeps them in chains. If they knew their *true* best interests they would have voted for Biden. So actually by switching out their "false consciousness" ballots with "undocumented ballots" from under the table those vote counters were increasing the amount of Diversity, Equity and Inclusion in the world which is always a good thing.

[Win / TheDonald](#) ▼[Sign In](#)

The plan on the 6th was for a large number of people to march down to the Capitol and celebrate when congress threw out the falsely certified electoral votes. Congress did the opposite, which pissed off a crowd of 250k people. Capitol police tried to contain the angry mob but then said, "fuck this shit, and stepped aside." Congress got scared because they did something wrong.

The AP took pictures of the scared congress people. Upon release, the pictures had the opposite effect, as AOC cowering ass first towards the camera did not gain sympathy points with Patriots. Congress realized what was actually happening and realized that they needed to spin the narrative fast.

Patriots did what patriots do and stayed inside the velvet ropes and then proceeded to take peaceful pictures in the gallery and on the floor of the house and senate. Some people went into congressional offices and took pictures there.

Because congress is selected rather than elected and absolutely cannot have the pedestrians trying to ride their horses, they are now trying to identify everyone who so much as breathed in the vicinity of the Capitol and charge them with high crimes.

Congress no longer gives a shit about the American people. They are going to make an example of all of us. But more than that, they want to make a huge example of Trump. A 10 year prison sentence is a death sentence for him. If they can't get that, they're going to deplatform him, wipe out his investments, and destroy any positive legacy he might have.

So no, this video isn't part of a master plan. It's him saving his ass and his family; which is what any of us would do in his shoes.

3 The desperate rewriting of history surrounding the patriotic and absolutely justified reclaiming of the Capitol from unelected traitors is pathetic. Ashli Babbitt is a hero; if only we had ten million more like her.

The only message Patriots should be sending re the Capitol incident is 'keep fucking us over and we'll do it with the gloves off next time'.

3 A-fucking-men. No shame. I suspect a great many of us (myself included, full disclosure) were concealing and I think we showed great discipline by not breaking ranks without guidance and leadership on the ground.

1 I was there too.

▼ There wasn't just one dynamic, there were several depending on what side of the building you were on and the time of day.

It was a mixture. Many were let in by the cops, many just walked in unopposed, the violent morons

weren't dressed like ANTIFA but they're weren't real pedes either. There absolutely were non-Trumpers

▼ Honestly, I'm sure that's very true. But I just don't think we should be scurrying away from it because the media said it was bad.

▼ "Qtard" lmao bro, you're a media narrative lemming and don't even realize it. Never a day in my life have I listened to the Q shit. You're an actual LARPing fuck who likely holds the dissonant beliefs that 1) the election was blatantly stolen so a hostile regime can be installed (true) AND 2) we *shouldn't* be storming the Capitol in response (retarded and wrong)

16 ▼ In what planet are you living in? Are you even in america? We're past our boiling point and all Trump has to say is that the people that were let in the capitol are fucking terrorists and/or violent people. That granny holding the tiny flag is a terrorist, the unarmed 16 year veteran is a terrorist. The father holding his son's hand watching the paintings are terrorists. I don't think you quite comprehend the level of Fuck you this video is for us all. Those frail bodied people are being portrayed as hardened, cold-blooded terrorists, when in reality all they wanted was the concession to their simple and rightful fucking demand: RECOUNT AND AUDIT THE VOTES!
